Yesterday the out was fishing in the little creek that runs through the hotel property, emptying into the Potomac through a culvert under the canal at that point. The out stood motionless for several minutes, and then pounced on a fish with both jaws. The fish jumped several feet out of the water, its body shimmering in the sun. It was then readily caught by the out, which waded to the shore with its dinner in its mouth. This particular fish has obtained quite a reputation as a fisher.

**Wants to Develop Her Soul.**  
Defying paternal authority and scoring present-day methods of education, Miss Violet Wilson, daughter of J. M. Wilson, the former mayor of Berkeley, has withdrawn from the University of California. She announced that she was her intention to develop her own soul and that she intended to get an education from real life and not one of the whole significance of which lay in a college diploma. Miss Wilson registered in letters and sciences at the university last August, but after a few months decided that her studies were hampering rather than assisting her mental growth. So despite the wishes of her parents, she left the classroom.—San Francisco Chronicle.

**HELP FOR WORKING WOMEN**  
Some Have to Keep on Until They Almost Drop. How Mrs. Conley Got Help.

Here is a letter from a woman who had to work, but was too weak and suffered too much to continue. How she regained health:

Frankfort, Ky.—"I suffered so much with female weakness that I could not do my own work, had to hire it done. I heard so much about Lydia E. Pinkham's Vegetable Compound that I tried it. I took three bottles and I found it to be all you claim. Now I feel as well as ever I did and am able to do all my own work again. I recommend it to any woman suffering from female weakness. You may publish my letter if you wish."—Mrs. JAMES CONLEY, 516 St. Clair St., Frankfort, Ky.

No woman suffering from any form of female troubles should lose hope until she has given Lydia E. Pinkham's Vegetable Compound a fair trial.

This famous remedy, the medicinal ingredients of which are derived from native roots and herbs, has for forty years proved to be a most valuable tonic and invigorator of the female organism.

All women are invited to write to the Lydia E. Pinkham Medicine Co., Lynn, Mass., for special advice—it will be confidential.

**OFFICIALLY**  
**Demand for Canadian Cattle After the War.**

The opportunities that Western Canada offers to the farmer have time and again been placed before the public through these columns. The cheap price at which the very best lands can be purchased, and the advantage that is to be had in securing one of the free homesteads of 160 acres has appealed to a great many, and they have embraced them. Many, in fact most of those who have done so are today giving testimony to the good fortune and the timely foresight that led them to go to Western Canada, and embark in an era of farming that has placed them away beyond the pinch of want and given them reason to look into the future with a hopefulness that they had not had the courage in the past to forecast.

Not only have they been able to secure good lands at low prices and on easy terms but if they desire they have been able to add to this 160 acres of land free, on conditions that are easy. A resident in the Lloydminster district in Saskatchewan who had been farming in the States for some time, took up a homestead in 1910, and commenced breaking with 4 oxen. Two years ago he bought an adjoining quarter section and now has over 100 acres under cultivation. He says, "As my circumstances improved, I sold the oxen and now have six head of horses, twelve head of cattle, and have always a bunch of hogs on hand."

"On an average I have had yields of 25 bushels of wheat, 65 bushels of oats, and 40 bushels of barley to the acre, and last season from a field of 28½ acres, I threshed 1,040 bushels of wheat. I have made a success of mixed farming and would have no hesitation in advising all who contemplate making a new home to come to this district. I sell cream to the Government Creamery here, and find at all times a good market for live stock and other produce."

This is but a modest statement of what a modest man can do in Western Canada, and could be repeated of hundreds of others.

Scores of cases could be recited where much more has been accomplished, and it is believed that with moderate investment at the present time, the cattle industry of Western Canada will pay large interest.

The Minister of Agriculture of Saskatchewan, in a recent address, ventured the prediction that the Saskatchewan farmer who developed his land along the lines of general stock breeding would make much more money and find a far bigger return for his efforts in ten years' time than the man who devoted his energies purely and primarily to grain raising. This was the coming golden age of opportunity for the stockman and it was up to the Saskatchewan man to get in on the ground floor and prepare himself for the coming demand.

The close of the war would undoubtedly see a great demand for live stock in Europe and it was only reasonable to suppose that this demand would have to be filled almost wholly by American stockmen, both in Canada and the United States. Europe was slowly draining its rural districts not only of its beef and dairy animals but also using the finer breeding animals and the end of the war would see a condition of affairs which would render necessary almost the repopulation of the domestic animal kingdom in that continent.

The opportunity of Western Canadian stockmen, therefore, lay in being prepared for this demand when it arose. In view of these facts which must be patent to every student of economic conditions as related to the stock industry, he hoped to see within the next three years the stock raising industry in Saskatchewan given an immense impetus forward, which would put it in the forefront of the producing provinces of the Dominion.—Advertisement.

**The Jar.**  
John D. Rockefeller was congratulated by a New York reporter on his recent gift of \$1,275,000 to education. "It must be a fine feeling," said the reporter, "to give away millions." "You get used to it," said Mr. Rockefeller. "To stop giving is what would jar me. I'm afraid I'm like the retired business man whose wife said the first day of his retirement: 'Father, what's the matter? You look so worried.' 'Well, no wonder I'm worried,' said he. 'I've never before had nothing to worry about.'"

**Horse Has Ragtime Habit.**  
A Cleveland horse has a preference for ragtime. When he heard the notes of a popular song from a phonograph the other day in a store he trotted right across the sidewalk, dragging a Wells-Fargo express wagon after him. The wagon became wedged in the door, and the animal, unmindful of the screams of women and shouts of clerks, set his ears forward and listened to the song, allowing himself to be led away by Joseph Davis, the driver, only when the phonograph had been shut off.

A man with a grouch never misses an opportunity to advertise it.

CASTORIA is a harmless substitute for Castor Oil, Purgative, Drops and Soothing Syrup. It is Pleasant. It contains neither Opium, Morphine nor other Narcotic substance. Its age is its guarantee. It cures Croup, Whooping Cough, Sore Throat, Bronchitis, and Whooping Cough. It cures Diarrhea and Wind Colic. It relieves Teething Troubles, cures Constipation and Flatulency. It soothes the Sore Throat, regulates the Stomach and Bowels, giving healthy and natural sleep. The children's Favorite—The Mother's Friend.

The Kind You Have Always Bought, and which has been in use for over 30 years, has been the signature of J. C. Watson, and has been made under his personal supervision since its infancy. Allow no one to deceive you in this. All Castoria, Imitations and "Just-as-good" are but Experiments that trifle with and endanger the health of Infants and Children—Beware against Experimentation. Genuine Castoria always bears the signature of J. C. Watson.
